

It doesn't look right.

If you think there is something wrong with the word you have written.

1 Say the sound the word out in parts and see if what you say matches what you have written.

In vist able

In vis ible

2 Look at the word; can you identify the part of the word you think is wrong?

In vis able

- Your word may need a double consonant e.g. *slipping*
- You may have missed a silent letter
- Using the alternative spellings for your sound might help you to spell the word you are stuck on.
